## AI-focused Java Developer

PRACTICAL AI-ASSISTED DEVELOPMENT, MIGRATION  
AUTOMATION, ENTERPRISE INTEGRATION

Senior Java developer with 10+ years of experience in backend development, enterprise integration, and automation. I combine strong Java/Spring engineering fundamentals with practical AI experience - currently using Claude Code for RPG-to-Java migration, structured prompting, Markdown context files, agent/subagent workflows, and production-ready review of AI-generated code.

**What I bring:** strong Java/Spring backend experience, enterprise legacy-system understanding, practical AI-assisted migration work, Scrum team collaboration, and the ability to translate complex technical work into structured plans, documentation, tests, and maintainable implementation.

### Certifications

AWS Certified Cloud Practitioner  
(CLF-C02) - 2024

Java SE 6 Programmer Certified  
Professional (SCJP6) - 2014

ITIL V3 Foundation - 2014

VMware Certified Professional 5  
- DCV - 2014

Professional SQL Package, Vita  
Academy - 2025

### Professional Experience

02/2026  
- present

#### Consultant / Developer - AI-Assisted RPG to Java Migration

Exxeta s.r.o. / Real Garant

**Technologies:** Java, Spring Boot, RPG, Claude Code (Opus/Sonnet/Haiku), Claude agents and subagents, JUnit, integration tests, end-to-end tests, Jira, IntelliJ

- Supporting modernization of legacy RPG systems into maintainable Java/Spring Boot applications using AI-assisted migration workflows.
- Creating structured Markdown context files and step-by-step task plans to make AI-assisted migration work more repeatable and easier to review.
- Designing custom Claude skills and commands to standardize recurring migration, analysis, and coding tasks.
- Reviewing, refining, and testing AI-generated code to keep the output maintainable, correct, and aligned with Java engineering standards.

## TECHNOLOGY STACK

### ● Backend

- Java, Spring Boot/MVC
- Hibernate/JPA, REST APIs
- JUnit, integration, and end-to-end tests

### ● Cloud & DevOps

- AWS Lambda, SQS, Kinesis, CloudWatch
- Docker, Kubernetes
- Jenkins, Maven, Gradle, Git

### ● Data & Integration

- MongoDB, Oracle, MS SQL Server, MySQL
- PostgreSQL, SQLite, Elasticsearch
- RabbitMQ, WebMethods, XML, JSON

## AGILE / SCRUM

- Scrum team experience with full ceremonies
- Daily stand-ups, sprint planning, reviews, demos, retrospectives
- Backlog refinement / grooming and estimation
- Jira, Confluence, documentation, status reporting

## LEARNING & INTERESTS

- Beekeeping and practical nature observation
- Educational content about nature for children
- Go - long-term player of the Chinese board game, introducing my children to strategic thinking
- Food self-sufficiency and practical home production
- Practical AI use in development workflows
- Process design and developer productivity

## LANGUAGES

Slovak **Native**

English **B2**

## EDUCATION

- Bachelor's degree in Computer Science
- Pavol Jozef Šafárik University, Košice
- 2007 - 2010

## Professional Experience

09/2021  
- 07/2025

### Senior Software Engineer - Backend Developer NESS KDC / Michelin Connected Fleet

**Technologies:** Java, Spring MVC, TypeScript, AWS Lambda/SQS/Kinesis/CloudWatch, MongoDB, Jenkins, Postman, JUnit, Jira, Studio 3T

- Delivered and maintained backend services and REST APIs used in enterprise connected-fleet systems, with focus on reliability, integrations, and production support.
- Improved operational visibility by working with AWS services, MongoDB, CloudWatch dashboards, alarms, and logs in daily development and support activities.
- Supported reliable delivery by building and deploying features through Jenkins CI/CD pipelines and contributing to automated testing and bug fixing.
- Contributed to full Scrum delivery cycles, including planning, refinement, demos, retrospectives, and cross-functional technical discussions.

06/2019  
- 08/2021

### Senior Software Engineer - AML Platform Developer NESS KDC / NICE Actimize

**Technologies:** Java, Scala, JUnit, Oracle, MS SQL Server, Docker, Kubernetes, Jenkins, AWS

- Delivered AML platform features and supported cloud/containerization readiness through Docker/Kubernetes proof-of-concepts in AWS and technical documentation.

03/2016  
- 05/2019

### Experienced Software Engineer - Java Developer NESS KDC / Perform Group CMS

**Technologies:** Java, GWT, Spring, Hibernate, RabbitMQ, Elasticsearch, JSON/XML/RSS, JUnit

- Delivered editorial CMS features and content delivery pipelines, integrated RabbitMQ and Elasticsearch, and supported team growth through mentoring.

04/2011  
- 02/2016

### Application Developer / Automation & Operations Specialist T-Systems Slovakia

**Technologies:** Java, WebMethods, Oracle, SQL, SOAP/REST, HP Operations Orchestration, Linux/Windows, ITIL

- Delivered automation-focused Java/WebMethods solutions and built a strong foundation in enterprise integration, operations support, and tooling.

## Selected Training

### Technical training

**2026:** Prompt Engineering AI I - Vita Academy; Introduction to Claude Code - Pluralsight; Anthropic training - anthropic.skilljar.com.

**2025:** Professional SQL Package, SQL, PostgreSQL, SQLite, Linux / Unix II.

**Earlier:** WebMethods, HP OO, VMware vSphere, Shell Programming, Linux Fundamentals.
